EDUCATION

Pranveer Singh Institute of Technology
Bachelor of Technology (Computer Science and Engineering) | Current GPA: 7.72

Kanpur, India
2024 – 2028

SKILLS SUMMARY

- **Languages** – Java, Python, C, C++, Javascript (ES6+)
- **Frontend** – React.js, Next.js (basic), Tailwind CSS, HTML5, CSS3
- **Backend** – Node.js, Express.js, RESTful APIs, JWT Authentication
- **AI/ML** – OpenAI API, RAG Pipelines, LangChain (basic), Prompt Engineering
- **Database** – MongoDB (Atlas), SQL (basic)
- **Tools & Technologies** – Git, GitHub, Postman, Thunder Client, Visual Studio Code, Jupyter Notebook
- **Core CS** – Data Structures, Algorithms, OOP, DBMS, Operating Systems

PROBLEM SOLVING

- Solved 200+ DSA problems on LeetCode – arrays, trees, graphs, dynamic programming, sliding window.
- Maintained well-structured GitHub repository of solutions with optimized approaches and explanations: [GITHUB](#)
- Strong understanding of time and space complexity with a focus on writing optimized and scalable solutions.
- HackerRank: 3-Star Problem Solving, 4-Star Java.

PROJECTS

- Full-Stack-E-Commerce-Platform | React.js, Node.js, MongoDB, RESTful-APIs | [LINK](#)

January 26 – April 2026

 - Built **JWT-based authentication** with role-based access control (RBAC) for users and admins, enabling secure session handling.
 - Integrated **Stripe payment gateways** for end-to-end online transactions with order management.
 - Designed **modular MVC backend architecture**; optimised MongoDB queries, reducing API response latency.
 - Developed fully responsive React UI with Tailwind CSS, improving UX across mobile and desktop platforms.
- CivicSentinel AI Complaint Portal | React.js, Node.js, Python, OpenAI API | [LINK](#)

February 26 – March 2026

 - Built an AI-powered civic intelligence system using **OpenAI APIs and a RAG pipeline** to process real-time complaint ingestion and actionable insights generation.
 - Implemented browser Geolocation API with reverse geocoding for auto-accurate incident location tagging.
 - Built a **dynamic knowledge graph** to visualizing city-issue relationships, improving data discoverability for civic authorities.
 - Designed an **AI-powered Civic Copilot (RAG + LLM)** for semantic query retrieval over a live civic knowledge base.
 - Finalist – India Innovates 2026 (national innovation competition).
- Smart Packet Analyzer | Java, JavaFX, Pcap4J | [LINK](#)

January 26 – February 2026

 - Implemented real-time **TCP/UDP/DNS packet parsing** and protocol analysis with live bandwidth analytics and DNS-based website detection.
 - Designed **event-driven architecture** for live data streaming and real-time UI updates with JavaFX.
 - Packaged as a Windows executable (.exe) with demo video and open-source Github release.

CERTIFICATIONS

- MERN Full-Stack Development—Tryst, IIT Delhi
- Software Engineering Job Simulation—JP Morgan
- Technology Job Simulation—Deloitte

ACHIEVEMENTS & EXTRACURRICULARS

- Finalist—India Innovates 2026 (national-level innovation competition)
- State-level basketball player
- Attended E-SUMMIT 2K24 and 2K25—IIT Kanpur
- Participant—Bitathon & TATA Crucible Campus Quiz 2025
- Attended a 3-day bootcamp on Artificial Intelligence
